|-----------------------------------|----------|
| A: Screws | 2 pieces |
| B: Double-sided tape | 1 roll |
| C: K-520 Primer Adhesion Promoter | 1 tube |
| D: Diffuser | 1 piece |

Before installing the diffuser, screws 5 and 6 must be removed.

Before you start assembly, the surfaces to be glued must be cleaned.

Then apply the primer (C) and let it dry according to the manufacturer's instructions. (See tube)

Stick on the adhesive strip and glue the diffuser to the bumper.

Then mount screws 5, 6, 3 and 4.
